FCC File # 0352-EX-PL-2005

---

Message:

Dear Mr. Kennedy,

I have amended the application and answered Yes to the question regarding developing radio equipment exclusively for export.

I have clarified which antennas are base stations and which are mobile. For future applications I will consolidate listings of these antennas wherever possible.

Please discard the document with Intel Confidential written on the bottom. Confidentiality is no longer appropriate for this information. I have uploaded a replacement document Experiment Desc 2.pdf that contains all the required information.

Sincerely,

Tom Cokenias  
Agent for Intel Inc.

Dear Mr. Thomas Cokenias:

If this experiment is exclusively for the exclusive purpose of developing radio equipment for export, please answer that question with as Yes in the application.

Please select "Fixed/Base" for the fixed locations and "Mobile" for the mobile locations as opposed to selecting "Base and Mobile" for all locations. In the future, please try to consolidate a fixed and mobile operation under one antenna using the "Base and Mobile" option.

Is the exhibit you submitted confidential? If so, please submit the fee for confidentiality and the answers to 47 CFR, Part 0.459(b)1-9.
