FCC File # 0709-EX-ST-2005

Message:

Dear Mr Kennedy,

The fixed base station antenna is the 90 degree antenna located on the Hilton Towers. The 30 degree antenna is for mobile use.

best regards

Tom Cokenias

Status:

Dear Mr. Thomas Cokenias:

Please clarify if one antenna is fixed and the other is mobile. Currently both antennas are labeled as Base and Mobile. As we discussed by phone previously, please try to use one antenna for both base and mobile operations instead of using one for base and a separate one for mobile as doing so often causes delays in the processing of your applications.
