Hello OET Lab,

Responding to your comment sent today:

"This application was filed on Sep 29, and today is Nov 27. Well beyond the requested 1 month extension. Please be advised we are going to dismiss the application by Dec 1."

It was initially thought only a 30 day extension would be needed to support the recovery efforts in the Houston, Texas region, we (Intel) were requested to support drone flight efforts until the end of December if it is possible.

Please let us know how we can support this request.

Thank you in advance,

Robert Paxman
