Dear Mr. Ghaffari,

Please find the answers to your questions below.

Q: How long do you anticipate for your testing to be completed?

A: One year from granting the license

Q: Why not filing for a conventional vs. program license?

A: We are a qualified institution and have a number of R&D programs that have need for the planned testing and experimentation. The planned experiments are in support of R&D, not product development

Q: Who is the property owner of the area of the operation/testing?

A: Transwestern Real Estate Services

Thank you,

Eric
