

Attachment on the Emission

The earth station will transmit a digital QPSK carrier at a data rate of 1250 KBPS and a forward error coding rate of 0.66 over a bandwidth of 1.2311 MHz.

The earth station will receive a digital QPSK carrier at a data rate of 2600 Kbps, and a forward error coding rate of 0.793 over a bandwidth of 2.1311MHz.
