Subject: FCC File No. 0512-EX-PL-2012

---

Message:

Pursuant to an inquiry received from OET on October 2, 2012 (Reference # 18180), Intelsat hereby responds to the issues raised in the OET correspondence regarding its application for an experimental license (ELS File No. 0512-EX-PL-2012):

- (1) A reformatted request for confidentiality conforming to OET specifications was electronically filed on October 9, 2012.
- (2) The height of the aircraft during flight (AGL) is anywhere between 0 and 40,000 feet above sea level. This is consistent with the operation of terminals onboard aircraft.
- (3) The other issues referenced in the correspondence have been otherwise addressed with OET staff and Intelsat will follow up with OET as appropriate.
