Subject: FCC File No. 0256-EX-PL-2010

Message:

Mr. Nolan,

In reference to your pending experimental applications, there appear to be some concerns with regards to conduct testing in the white spaces channels. The reason for such concern is that your requested freq. bands are all being utilized by TV stations in the areas and there is a high possibility that the proposed testing will cause interference to reception of those TV stations. Aside from SBE prior coordination please propose other solutions to safeguard the consumers and viewers at home?

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of August 17, 2010 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
