RE: Amendment to Application Seeking to Renew Experimental Station WB2XFR of Internet Satellite Systems, Inc. ("ISS")

Pursuant to our conversation on December 6, 2001, Internet Satellite Systems, Inc. ("ISS") is hereby responding to Reference Number 1529. ISS certifies that the Federal Communications Commission ("FCC") previously authorized 100 units per site to experimental station WB2XFR. Therefore, based on this authorization, this is the current quantity of units operating at each location.
