Subject: Request for Info - File # 1531-EX-ST-2018

---

Message:

Hi Hung,

I am responding on behalf of Joe Godles who is away and not able to respond immediately to your request.

As we discussed on the phone, the emission designator and stop-buzzer information you requested is usually not provided because it utilizes the emission designators and operational parameters currently authorized for the Iridium NEXT Constellation.

The STA request merely seeks to permit space to space communication on the frequencies between the satellite phone and the Iridium constellation as has been routinely authorized in the past under the following callsigns and file numbers:

0083-EX-ST-2017 WK9XTY TechEdSat 5 granted 2/1/2017

1591-EX-ST-2017 WM9XAH TechEdSat 6 granted 11/20/2017

1137-EX-ST-2018 WM9XYM Capitol Technology University granted 8/11/2018

Please advise whether this can be granted in the timeframe we requested in the application.

Regards,

Mike Lehmkuhl
