Via Electronic Filing (FCC 442)

RE: Application for Experimental License

Application File #0247-EX-PL-2010 and Concurrent Extension of STA for: Experimental Radio Station: WE9XHV

SUBJECT: Required Statement of Experimentation

## To the Commission:

This applicant requests an experimental radio station license for the purpose of teaching television and stage production techniques while providing a means with which to send combined analog audio and video to a remote internet web-link and other post-production equipment for distribution to students' homes for their disabled or elderly family members. This license will contribute to the radio art by providing students an ongoing education into video communication arts and sciences via the curriculum the undersigned teaches either in the Kansas City, Missouri School District as a tenured faculty member or at Park University as an Adjunct Professor. All operations pursuant to any license granted in connection herewith are intended to be intermittent. That is, the operations will be with the intent of not using the frequencies and emissions on a continuous basis.

Respectfully submitted:

James Edwin Whedbee, M.Ed.: Applicant
