

JVCKenwood USA Corporation
STA Application (Additional)
IWCE Convention Demonstration
STA File Number 0209-EX-ST-2018

This is a second STA Application proposing the use of channels at 450-470 MHz, 858-868 MHz, 813-823.8 MHz, 824.7-829 MHz, 844-848 MHz, 1850.7-1860.5 MHz, and 1900-1909.5 MHz for short-range demonstration of JVCKenwood products within the Orange County, Florida Convention Center in Orlando. An earlier-filed STA, 1730-EX-ST-2017 (which is still pending and unadjudicated) specifies the use of other 800 MHz conventional channels and 900 MHz land mobile channels, and the band 1920-1930 MHz for demonstration of products at the same large land mobile radio show. This second STA application was necessitated by the addition of other JVCKenwood products for exhibit and demonstration at this Convention.

All demonstration operation will be inside the Orange County Convention Center. The STA will be used for very low-power demonstrations of JVCKenwood radio products at the IWCE land mobile radio show during March 3-10 of 2018.

The “stop-buzzer” contact for this operation will be Angie Seay who can be reached at 770-497-3964. Additionally, regulatory counsel for JVCKenwood can be reached for stop-buzzer contacts at the following mobile number: 301-351-3795.

The STA sought is similar to STAs requested and granted in 2005 through 2016 for operation and demonstration of UHF, 800 MHz and 900 MHz Equipment Authorized devices at the IWCE trade show when it was located in Las Vegas, Nevada. The Prior STAs were WC9XDC, File Number 0129-EX-ST-2005; WC9XOF, File Number 0274-EX-ST-2006; WC9XWR, File Numbers 0075-EX-ST-2007, 0619-EX-ST-2007, 0084-EX-ST-2009; WE9XGZ, File Number 0111-EX-ST-2010 and 0130-EX-ST-2011; WF9XLC, File Number 0042-EX-ST-2012 in 2012; WG9XIH, File No. 0173-EX-ST-2013 in 2013; and WH9XHN, File Nos. 0083-EX-ST-2014 and 0192-EX-ST-2015; WJ9XMV, File No. 0183-EX-ST-2016 and 0112-EX-ST-2017.
