

Jankel Tactical Systems, LLC Experimental License Modification
Application Request for Confidentiality
Application File Number: 2137-EX-ST-2018

Jankel Tactical Systems, LLC is requesting confidentiality for experimental license application number 2137-EX-ST-2018 to the extent allowed by the Commission's Rules, 47 C.F.R. §0.459. Should the Commission be unable to grant this confidentiality request, the applicant requests that the Commission contact the applicant as soon as possible.

The radio operations proposed under this application are for the testing of proprietary technology under research and development to serve some interests expressed by federal agencies in the US. While the Commission's Rules automatically protect some national security information from public disclosure under 47 C.F.R. §0.457, the application submitted here does not fit into the specific provisions of Section 0.457. Therefore, Jankel Tactical Systems, LLC is seeking to protect the information submitted here under the provisions of Section 0.459 of the Commission's Rules. The request for confidentiality is intended to protect proprietary and sensitive information about how this technology is being developed and how it might operate. Protecting this information will protect Jankel's proprietary technology from unwarranted exposure.

Additionally, this application includes technical trade secret information which Jankel Tactical Systems wishes to keep secret from its competitors, in addition to shielding the sensitive information from general release. The details in the exhibit include information that could lead competitors to learn about some of Jankel's proprietary innovations in factory development using spectrum. Keeping the design and operation of this facility confidential is essential to maintaining the totality of the trade secrets related to Jankel's factory innovations and how they work.

This request for confidentiality requests that the Commission withhold from public view any information related to the description of use of spectrum and all exhibits filed with this application. Protection of this information is essential to preserve Jankel Tactical Systems, LLC ability to fulfill its responsibilities to its Department of Defense customers and to protect the American public.

In accordance with the OET Electronic filing system requirements, a point by point explanation of the request under section 0.459 of the Commission's Rules is set forth below. Jankel Tactical Systems, LLC hereby requests confidential treatment of this application and, in particular, confidential treatment of the exhibits.

Subsection (b) (1): information to be kept confidential – all information in the exhibit to application and as much of the application as can be kept confidential. Some aspects of the system under development are protected trade secrets, and as such, confidential treatment of this application will protect from the public some of the tools and techniques that Jankel keeps secret to advance the development of its products;

Subsection (b) (2): This application is submitted as required by law to seek authorization to operate, however the circumstances of the operation require that

this confidentiality request be filed in the interests of national security and to protect trade secrets. Some aspects of the system under development are protected trade secrets, and as such, confidential treatment of this application will protect from the public some of the tools and techniques that Jankel keeps secret to advance the development of its products;

Subsection (b) (3): Some aspects of the system under development are protected trade secrets, and as such, confidential treatment of this application will protect from the public some of the tools and techniques that Jankel keeps secret to advance the development of its products;

Subsection (b)(4): Some aspects of the system under development are protected trade secrets, and as such, confidential treatment of this application will protect from the public some of the tools and techniques that Jankel keeps secret to advance the development of its products;

Subsection (b)(5): Some aspects of the system under development are protected trade secrets, and as such, confidential treatment of this application will protect from the public some of the tools and techniques that Jankel keeps secret to advance the development of its products;

Subsection (b)(6): Some aspects of the system under development are protected trade secrets, and as such, confidential treatment of this application will protect from the public some of the tools and techniques that Jankel keeps secret to advance the development of its products;

Subsection (b)(7): The underlying information is available only to individuals with the authority to access the information at the relevant secured facilities. Some aspects of the system under development are protected trade secrets, and as such, confidential treatment of this application will protect from the public some of the tools and techniques that Jankel keeps secret to advance the development of its products;

Subsection (b)(8): National security requires that this information be kept confidential during processing AND for the duration of any license, and license renewal, that is issued. Some aspects of the system under development are protected trade secrets, and as such, confidential treatment of this application will protect from the public some of the tools and techniques that Jankel keeps secret to advance the development of its products;

Subsection (b) (9): Some aspects of the system under development are protected trade secrets, and as such, confidential treatment of this application will protect from the public some of the tools and techniques that Jankel keeps secret to advance the development of its products;
