Dear Mr. Hart,

Attached please find a copy of our request to the FCC, Auxiliary Services Branch, for Special Temporary Authority to operate on two microwave frequencies in the 2300 MHz band. Full details of our intended use are included in that request.

As in the past several years, we are seeking the AFTRCC coordination approval of our use of these frequencies. Enclosed please find a check in the amount of \$500 for payment of this coordination. If you desire additional information or have any questions, please call me at (323) 850-2228.

Please fax your approval to my attention at (323) 851-0379. Thank you for your cooperation in this request.

Sincerely

A handwritten signature in cursive script that reads "John M. Seymour".
