

EXHIBIT B

EARTH STATION INFORMATION

Table 1: Description of the earth station to be installed on site.

Address	Latitude	Longitude	Manufacturer	Model	Quantity	Peak Gain (dBi)	HPBW	Diameter (m)
4030 Nelson Avenue, Concord, California 94520	38°0'25.33"N (38.007036)	122°2'38.58"W (-122.044051)	Sea Tel	9711	1	49.3 @ 14.25 GHz	0.61°	2.4

Because the antenna will be communicating with Kepler's NGSO network, it will track across an azimuth range of 0 – 360° and elevation between 10 – 90°.
