Date: April 30, 2010

Subject: FCC File No. 0185-EX-ST-2010

---

Message:

I am the designated point of contact. We will maintain a reliable telephone at the transmitter site, callable at +17074700742. The line will be kept clear for urgent communications. An officer or employee of Kestrel Signal Processing, Inc. will staff that phone at all times, authorized to terminate transmissions and knowing my whereabouts. We will not operate the transmitters if the contact telephone is not working properly.
