Subject: FCC File No. 0036-EX-PL-2016

Message:

Hello-

I have coordinated with the FAA spectrum office as requested. NGT Number is 160054

I've pasted the email response from them below. By the way, the contact email that was provided to me was misspelled (spelled as peter.motely when it is motley. The phone number was correct, thankfully.) They processed it in a few days. I had thought they were just slow in responding.

Thank you,
Mark

Mr. Amend,

We concur for the use of frequency band M5020 – M5040 for testing of SEATAX system. Below is NG T number for FCC EX license application.

NG T160054
