Adding Ben to the email since we have communicated before. I think it's safe to say that this will be the primary location for this license. It is close to many more potential customers and coastal. The one for Maryland was for a specific govt customer and in the end they got approval through their own spectrum management office.

Thanks,  
Mark

Hi Mark,

A question from Benham in the bottom.

David

It appears the purpose of this modification is to move the test/demo site. Considering the experimental license was granted recently, how often do you intend to move the venue?
