Message:

Hi Mr. Nguyen,

The UAV/UAS has an operational ceiling of 30kft with a different RF link and at a military range.

For this link and this location, we are limiting operations to 17,500 feet MSL. The Oklahoma Air and Space Port (Clinton-Sherman Airport at Burns Flat, OK) that we are basing from has an altitude of 1,922 feet MSL. Given that, our maximum operating altitude is approximately 15,575 feet AGL. Our planned maneuvering altitude is between 10kft and 15kft MSL (8kft - 13kft AGL).

Please let me know if you have any further questions.

Regards,  
John Kurkjian
