Subject: FCC File No. 0845-EX-CN-2017

---

Message:

I could not get the MAG coordination released from the 0838-EX-CN-2017 request after I deleted the frequencies requiring MAG coordination. I tried different computers, different web browsers and waited a few days to try and get it to release. The site never released the requirement so I started over. 0845-EX-CN-2017 EL788503 is the current and correct request.
