

L3Harris Technologies, Inc.
Experimental License Modification
Call Sign WH2XJE
File No. 0206-EX-CM-2021
September 2021

EXHIBIT I - EXPERIMENTAL LICENSE MODIFICATION

L3Harris Technologies, Inc. ("L3Harris") hereby submits this experimental license modification request for its FCC experimental authorization operating under FCC Call Sign WH2XJE.

The only purpose of this modification is to **remove location 2** and its associated frequencies from the authorization. Location 2 was authorized for various frequencies at Fayetteville (SAMPSON), NC - NL 35-01-48; WL 78-32-24. L3Harris will no longer operate at this location thus requests its removal from the license.

L3Harris will continue to utilize the experimental license and existing authorized associated frequencies for the other authorized locations, namely-

- (1) Rochester (MONROE), NY - NL 43-08-52; WL 77-33-31
- (3) Colorado Springs (EL PASO), CO - NL 38-49-48; WL 104-49-12
- (4) Mary Esther (WALTON), FL - NL 30-28-01; WL 86-22-12; MOBILE: Mary Esther, FL, within 80 km

As noted on the existing authorization, because the equipment is technically incapable of providing station identification, L3Harris respectfully requests a waiver of the station identification provisions of Section 5.115 of the Commission's rules, 47 C.F.R. § 5.115.

L3Harris will continue to adhere to the Special Conditions noted on the experimental license.

The stop buzzer contact remains: Marcelo De Risio at Harris, tel: (585) 241-8416, mobile: (585) 978-0754, e-mail: MDeRisio@L3harris.com
