Subject: FCC-File.No:0561-EX-CN-2021

---

Message:

Please submit some additional information regarding the following:

1. Justification for using entire AWS spectrum at a super high power, 70 dBW.
2. More detailed technical information such as antenna patterns, antenna direction etc.
3. Why do you need that high level of power, 10,000,000 watts EIRP, associate with non-modulated signal scheme, NON ?.
4. An engineering analysis and explanation of how it would specifically avoid causing harmful interference to incumbent AWS operations.
5. Any stop buzzer information just in case interference occurs?.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of July 16, 2021 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
