Message:

File No. 0069-EX-ST-2012

Ref. 16123

Mr. Ghaffari:

Thank you for your note regarding the geographic coordinates listed on the above-referenced application.

Having review the locations and the geographic coordinates, it appears that the coordinates listed for both locations should be revised slightly.

Specifically, the coordinates for the two locations should be listed on the application as follows:

Location #1 ? Safety Harbor, FL.

- Correct Coordinates = 27 59? 20?N.Lat. and 82 41? 10?W.Long

Location #2 ? Tierra Verde, FL

? Correct Centerpoint Coordinates = 27 36? 58?N.Lat. and 82 43? 46?W.Long.

Please advise if the Commission will correct the coordinates on the application, or if you would like the applicant to correct the coordinates directly on the application.

Please let me know if you have any further questions.

Jeff Rummel
