

Exhibit 1

In connection with this renewal application, it is noted that the Commission's records still reflect the licensee of Station WE2XQM as DRS Surveillance Support Systems, Inc., although there remains on file with the Commission an application ("Transfer Application") pending under File No. 0002-EX-AU-2009 seeking Commission consent to (i) the pro forma assignment of Station WE2XQM from DRS Surveillance Support Systems, Inc. to Laurel Technologies Partnership; and (ii) the transfer of control of Laurel Technologies Partnership, DRS Surveillance Support Systems, Inc. and Station WE2XQM.

Accordingly, because the license is still listed in the ELS as licensed to DRS Surveillance Support Systems, Inc., the renewal has been filed under that company name, and under that company's FRN (0006867923). Upon Commission grant of the Transfer Application, the Station WE2XQM license will be properly listed in the ELS as authorized to Laurel Technologies Partnership (FRN 0018379230).
