Subject: FCC File No. 0318-EX-RR-2013

Message:

File No. 0318-EX-RR-2013

Ref. 21420

Mr. Ghaffari and Mr. Woods:

In reply to Mr. Ghaffari's inquiry issued on 9/5/2013 (Ref. 21420) requesting FAA coordination of the frequencies 9050 MHz and 9350 MHz on Station WE2XQM, in connection with the pending renewal application under File No. 0318-EX-RR-2013, this is to advise you that the FAA has completed its coordination of the two frequencies.

Please see email below from FAA's Charles Thornton.

As you can see, the NGT numbers are as follows:

- 9050 MHz: NG T130449
- 9350 MHz: NG T130461

PLEASE NOTE: In Mr. Ghaffari's prior email from 10/18 below, he stated that "The referenced 2 frequencies will be expired in GMF as well as on the experimental license on Dec 1, 2013, in which these 2 records (freq.'s) will be kicked out of it thereafter." Accordingly, it is respectfully requested that the GMF be updated as necessary prior to December 1 to reflect the new coordination of these frequencies for the pending renewal under File No. 0318-EX-RR-2013.

Best regards,

Jeff Rummel
Attorney for Laurel Technologies Partnership
