File No. 0461-EX-CR-2021
(Ref. 64201)

Mr. Ghaffari:

As requested in Ref. 64201, the following actions have been completed and Leidos respectfully requests that the Commission proceed with any final processing of the renewal application:

1. NRQZ Coordination

Pursuant to the email below from Ms. Woody, Leidos hereby reports to the Commission that NRQZ coordination is complete – see below email which states in part.

“By copy of this email, the NRQZ office once again recommends that NSF vote approve on all assignments provided that they indicated that they are mobile only operation and no fixed facilities are associated with any case.”

As specified by Ms. Woody, the “Case Number” for this coordination is:
(13205_30AUG2021)

2. Verification of Operations to NSF

As previously noted, per the attached email dated 8/27, the operations under this license were verified with NSF.

Best regards,

Jeff Rummel
Attorney for Leidos, Inc.

Mr. Ghaffari et alia,

Thank you for the assignment numbers (NG 207196 and NG 229043). I already had those on file for this application.

Mr. Rummel's email had the NG's that I didn't have record of. They too have now been associated with this case.

To be brutally honest, getting through the paperwork associated with this has been painful. For the purpose of clarity and for future reference, please make sure that the case number ID (13205_30AUG2021) is in the supplemental details of each assignment.

By copy of this email, the NRQZ office once again recommends that NSF vote approve on all assignments provided that they indicated that they are mobile only operation and no fixed facilities are associated with any case.
