Subject: 0565-EX-CN-2021 pre-coordination data request

---

Message:

File No. 0565-EX-CN-2021

Ref. 63201

Mr. Ghaffari:

In reply to Ref. 63201 ("Prior coordination with the FAA is required for the frequencies 128.50000000 MHz 136.00000000 MHz requested in this application."), this is to advise the Commission that:

- The frequency 128.50 MHz has been deleted from the application, and replaced with 123.350 MHz

- The frequency 136 MHz has been deleted from the application, and replaced with 123.550 MHz

Accordingly, it is Leidos's understanding that FAA re-coordination through the WebFCR portal is no longer necessary, and that this inquiry should be considered resolved. Please advise if this understanding is incorrect.

Leidos requests that the Commission proceed with final processing.

If there are any additional questions regarding the pending application, please feel free to contact undersigned counsel.

Best regards,

Jeff Rummel  
Attorney for Leidos, Inc.
