Following up re:

- Ms. Woody's email below confirming the "NRQZ coordination number (aka case ID) of "13206" and
- Ms. Woody's prior email confirming that "NRQZ coordination under 47 CFR 1.924(a) would not be required" because the operations are specified as "Temporary-Fixed".

Leidos assumes that NRQZ coordination has been completed as requested by the FCC pursuant to the inquiry under Ref. 64276, and that no further action is required by Leidos to complete the action required by Ref. 64276.

Please advise if this understanding is incorrect.

Re: NSF

- Dr. Zauderer - Is NSF prepared to approve on its end?

Re: FCC

- Mr. Ghaffari:

- o Have you been able to confirm that the above "case numbers" have indeed been inserted in the "SUP details"?
- o You mentioned that the following MAG frequencies were not at NTIA yet - any update on this? Or anything we need to do?

NG251121 MAG (NOT AT NTIA YET) (226.3 MHZ)  
NG251122 MAG (NOT AT NTIA YET) (251.3 MHZ)  
NG251123 MAG (NOT AT NTIA YET) (304.3 MHZ)

Jeff Rummel
