

### DESCRIPTION OF OPERATIONS

Lockheed Martin Corporation ("Lockheed Martin") hereby seeks authority under Part 5 of the Commission's Rules to permit it to conduct airborne testing of the integrated URC-200 radio on the F-16 from its facility in Ft. Worth, Texas. This activity will be conducted in support of multiple government contracts (FA8615-17-C-6045 and ALC/17/478).

Lockheed Martin requests authority to perform the airborne testing within 300 km of its runway at Ft. Worth.
