

PURPOSE OF EXPERIMENTATION/U.S. GOVERNMENT CONTRACT

Lockheed Martin Corporation ("Lockheed Martin") hereby requests authority under Part 5 of the Commission's rules to permit to develop and test a new missile system. The subject application is intended to provide telemetry capability in and around Lockheed Martin's facility.

Authority will be used to support the Extended Range Guided Multiple Launch Rocket System (ER GMLRS) project (U.S. Government contract W31P4Q-19-C-0065). The contract is managed by U.S. Army Strategic and Operational Rockets and Missiles (STORM), PEO Missiles and Space.
