Subject: FCC File No.0968-EX-CN-2020

---

Message:

In response to your correspondence of February 22:

(1) We transmitted a copy of the SpaceCap file on November 18, 2020. Please note that it was transmitted by way of a different email that generally used for this account. We have sent again to the email address, as requested.

(2) We have identified the ground stations in our attachment called Exhibit 2. When we last discussed this, we were informed by your office that we did not need to include the ground stations in the FCC Form 442 itself, since one station is subject to its own license in the IB (call sign E200663) and the other is a receive-only facility. If you would like for us to include the earth stations still in the Form 442, we will amend.

(3) We will submit a PFD calculation for the 8000 MHz channel.
