Subject: FCC File No. 0968-EX-CN-2020

---

Message:

In response to correspondence number 60703:

(1) NOAA letter was transmitted under separate cover.

(2) Stop buzzer POC:

Chris Shaffer

Mission Operations Lead

949 344 6157 (mobile)

(3) As we have stated previously, the Form 442 only accounts for the transmitter on the spacecraft, of which applicant will be owner and operator. The information in the application narrative related to the S-band earth stations was included in order to provide a comprehensive understanding of how the mission will be conducted. All of the S-band earth stations are separately licensed. The provision of the Earth-to-space link in the domestic United States is covered by facility under FCC Call Sign E200663. The provision of the Earth-to-space link at non-U.S. locations is covered by facilities licensed within their respective jurisdictions.

(4) SpaceCap v9 was transmitted under separate cover.
