

New Contracts

WD2XVH

Lockheed Martin Sippican, Inc.(LMS) requests this FCC license to allow transmission of frequencies to verify the proper operation of the OE-538 Multi-Function Mast Antenna and its associated variants. These units are provided to support the U.S. Submarine Naval Fleet as well as the Japanese, United Kingdom, and Australian Submarine Fleets. Below is a table that identifies the appropriate contract or purchase order and the corresponding program name. Questions concerning these contracts can be directed to Richard Planchet at 774-553-6199.

Contract/ Purchase Order Number	Equipment Name	Country of Use
N0039-09C-0038	OE-538 BRC Increment 2	United States
P.O. MYD-1750	OE-538/BRC (M2)	Japan
