Dear Mr. Ghaffari,

Thank you for your message.

Please be aware that the transmitters in application 0754-EX-CN-2019 have a maximum operational altitude of 75,500 ft. AGL within 25 km centered around the coordinates identified in Loon's pending application (20 45 52 NL and 156 33 40 WL). Please be aware that this operational altitude has previously been approved in prior Part 5 experimental license grants for Loon tests (e.g., WH2XUP).

If you have additional questions or concerns, please let us know.

Sincerely,

Julie Kearney
Loon, LLC
