Application Narrative for Proposed Equipment

Proposed Program

Lyft is proposing GPS within their laboratory building for testing purposes.

Objectives

We seek to accomplish the following objectives:

1. Illumination of the part of the aircraft facility, located at 185 Berry St, Suite 5000, San Francisco, CA with a GPS signal to allow for the testing and experimentation indoors for continued exploration of utilizing GPS technologies within their vehicles, scooters, and other modes of personal transportation to provide innovative applications and continue to provide safe products.
2. Further design, development and enhancement of existing GPS applications to provide greater efficiency and more effective means of utilizing GPS derived information.
