

26 October 2020

Mr. Ronald Repasi
Acting Chief, Office of Engineering and
Technology Federal Communications
Commission
445 12th St SW
Washington, DC 20554

Dear Mr. Repasi,

This submission is a request for Special Temporary Authority (STA) for short duration tests of Lynk Global, Inc's (formerly known as UbiquitiLink, Inc.) concept of operations.

Our payload became operational on 13 May 2020 and operates under call sign **WQ9XDP**. One of the licenses associated for that call sign will expire 1 November 2020. This license allows us to test the satellite. The satellite has not completed its mission; therefore, we are requesting a new STA.

We have made a formal request for key sensitive information to be redacted from the public posting of the application. Pursuant to Sections 0.457 and 0.459 of the Commission's rules, 47 C.F.R. §§ 0.457 and 0.459, the Commission may withhold from public inspection and accord confidential treatment to certain material related to this application. We have attached the details of this request in a separate document, and have provided a public version of the STA application in which we have redacted information that qualifies as trade secrets and confidential information under Exception 4 of the Freedom of Information Act.

We are available for any additional support you or your team requires in reviewing this request. Thank you for the consideration of our application, redaction request, and your time.

Best Regards,

A handwritten signature in black ink, appearing to read "Charles E. Miller".

Charles E. Miller
Chief Executive Officer
Lynk Global, Inc.
