

Date February 16, 1989

To: Mr. Claude Wells

cc: Messrs. M. Adcock, J. Clontz, M. Cooper, D. Deeds,  
M. Galassini, C. Manness, A Varner (without attachments)

From: A. Camarce Dept. 56MH MP-003 Ext. 0324

Subject: FCC EXPERIMENTAL LICENSES RENEWAL REQUEST

Reference: Interoffice Memo from Claude Wells to Marty Galassini dated  
January 9, 1989

-----

The following information is furnished per your request in the reference memo:

- 1) KA2XPH - See Attachment 1 (2 pages)
- 2) KF2XDV - See Attachment 2 (1 page)
- 3) KO2XBQ - See Attachment 3 (1 page)
- 4) KB2XCD - Al Varner is requesting that this license be extended for two more years. Another set of sled tests will be run in that time period.
- 5) KM2XBF and KM2XBG - These licenses can be cancelled.
- 6) KB2XAW - This license is requested to be renewed for at least two more years preferably 5 more years with the following changes.
  - a) Modify 1030 MHz with 200 W output, 13.48 dBi TX antenna gain, 8M00MXX emission designator
  - b) Add 1090 MHz with 250-1000 W output, 0dBi TX antenna gain, 6M00MXX emission designator
  - c) Replace Deseret Ranch, Florida with Electro-Optical Test Site, Florida (LAT 28° 24'N, LONG. 81° 04'W)
  - d) Add the following locations:
    - Pt. Magu, California (LAT. 34° 17'N, LONG. 119° 07'W)
    - San Nicholas Island, California (LAT. 33° 15'N, LONG. 119° 28'W)
    - Camp Grayling, Michigan (LAT. 44° 41'N, LONG. 84° 42'W)

Any questions should be addressed to the writer.
