

Change the centerpoint on WJ2XHO from: (Latitude 42 33' 03", Longitude: -72 00' 58") to Latitude 42 33' 11", Longitude: -71 35' 50". The change in center point is due to a new flight testing location. When we fly our small UAS they typically stay in a small operating region (within 2 km). The Fortem radar will be operating onboard a controlled unmanned aircraft below 400 ft AGL.
