Subject: [EXTERNAL]: RE: FCC File No. 0204-EX-CM-2021

Good Morning, Benham:

We request this amendment so that we can run experiments with a prototype system in a few different locations.

We have requested expanded radius as there are multiple MIT Lincoln Laboratory buildings where we may need to use the system. All sites are indoors.

The requested an additional test location in Boston, MA is an MBTA training center. We anticipate testing the system at this location eventually. This test site is underground.

Let me know if any other info is needed.

Thanks,
Will
