

The system has 8 directional antennae.

The width of each antenna/beam is 45 degrees.

All antennae are oriented 0 degrees from the horizontal plane.

The first antenna is oriented at 0 degrees True North.

The remaining antennae are offset 45 degrees from the preceding antenna oriented on the following headings relative to True North: 45, 90, 135, 180, 225, 270, 315.
