Pittsburgh, PA 15251-5320

**Re: Request of Motorola Satellite Communications, Inc.
for Modification of an Experimental License**

Dear Ms. Salas:

On behalf of Motorola Satellite Communications, Inc. ("Motorola"), enclosed please find for filing an original and two copies of an application for modification of an experimental license (Call Sign No. WA2XRQ; File No. 6132-EX-PL-1998) on FCC Form 442. The purpose of the modification is to conduct radio propagation tests over the following additional frequencies: 1990-2015 MHz, 2160-2160.01 MHz, 2165-2181 MHz, 2185-2190 MHz and 2199.99-2200 MHz. Motorola is currently conducting tests over these frequencies pursuant to Special Temporary Authorization granted by the Commission on September 4, 1998 (Call Sign No. WA8XRQ; File No. S-3498-EX-1998).

Motorola has demonstrated that it will not cause harmful interference to any authorized user of the spectrum. That showing is herein incorporated and enclosed as Attachment 1.

Also enclosed is a check in the amount of \$45.00 for the applicable filing fee and an additional copy, which we ask you to date stamp and return with our messenger.

Respectfully submitted,

Tekedra V. McGee
Attorney for Motorola Satellite
Communications, Inc.
