AFTRCC Coordination Exhibit and Narrative
Brooklyn, NY Formula E Championship Automobile Race
July 8, 2019 through July 14, 2019
FCC STA Application File Number 1058-EX-ST-2019 (filed 6-11-2019)**

This coordination application proposes the use of a total of 35 megahertz of spectrum at 2360-2395 MHz in the Brooklyn, NY area for terrestrial only video production at the ABB FIA Formula E Championship automobile race events, a street racing event using single-seat electric vehicles. This is one of the two largest international automobile racing events in the United States. The telecommunications arrangements for this event are all made by MRTC which is based in England.

Coordinates are 40-40-48 North and 74-0-57 West.

The events are between July 8 and 14, 2017. Occupied bandwidth is 8 megahertz at a power level of one watt EIRP. The emission is 8M0D7W. The video production equipment varies but the TPO will not exceed 1W.

All communications can be directed to the office of counsel for MRTC Motorsports Communications :
