

MRTC Motorsport Communications
MRTC, Ltd.
Application for Special Temporary Authority
File No. 1654-EX-ST-2021

PURPOSE OF STA AND FREQUENCY COORDINATION

The purpose of this STA is to further test an automobile racing communications system for voice communications that is in the developmental stage. The tests will occur at one racing event (Petit Le Mans) during the period November 10-13, 2021 in Braselton, GA at the Road Atlanta race course. The system will be deployed by the Optimum Motorsport racing team. The race team will use the communications system on a developmental testing basis on behalf of and overseen by MRTC Motorsport Communications.

The applicant requires for this venue 9 VHF channels, four of which are paired as specified in this application in the range 154/172 MHz for duplex and simplex voice operations, and three simplex UHF channels.

The applicant has consulted the ULS database with respect to the VHF and UHF channel ranges sought and proposes what are believed to be unoccupied channels in the area of the Road Atlanta speedway. Similar STAs have been granted for these same test operations at this and other venues in the past, and conducted without interference. However, should any interference arise during this experimental operation, all such operation will cease and not resume unless and until the interference is resolved to the reasonable satisfaction of any complainant.

The stop buzzer contact is Mr. Bas Lienders, whose mobile telephone number is +32 475 46 89 90. However, a United States stop-buzzer contact is the undersigned counsel who can be reached at all times at 301-351-3795 (mobile).

All other inquiries can be addressed to undersigned counsel as follows:
