Mr. Ed Page
Executive Director
Marine Exchange of Alaska
1000 Harbor Way, Suite 204
Juneau, AK 99801

Dear Mr. Page:

I have reviewed the request of the 6211 project team and MXAK to extend the effective period of CRADA No. 13-CRADA-RDC-002. Based on the adjusted timeline for tech demos for Phase II of project 6211, potential long lead times for obtaining subsequent broadcast authorizations from the Federal Communications Commission and National Telecommunications and Information Administration, I have agreed to an **additional two-year extension**. The extension is a result of recent conversations between Mr. Bill Benning and LCDR Michael Turner of my staff.

Enclosed are two copies of the extension. If you agree to the terms called for in the extension, please sign both copies in the appropriate location and return both to the U.S. Coast Guard Research and Development Center. A final copy will be sent to you after my signature. LCDR Michael Turner (860-271-2882, Michael.L.Turner@uscg.mil) will be your point of contact here at the Research & Development Center.

For information about the Coast Guard R&D Center, including access to our current project portfolio, please scan the below code with your iOS or Android device to access our website.

Sincerely,

A handwritten signature in blue ink, appearing to read "D.C. Evans", with a stylized flourish extending from the end.

D.C. EVANS
Captain, U.S. Coast Guard
