Sorry, I'm a little confused about removing one of the antenna locations. Dugway, UT is my higher priority but I am looking to get authorization for both Huntsville, AL and Dugway, UT. Will the STA somehow cover both?

with regard to confidentiality, neither filing should be confidential. Sorry, I must have checked that box inadvertently. Can I go to the filing online and correct it or could you correct it?

What are the NGT numbers from the FAA? is this some coordination I can do online with the FAA?

Thank you very much for all your help
