Message:

4) Description of Operation. For this experimental license, we intend to operate using the frequency allocation of 13.87 mHZ to 14 mHZ, according to 47 CFR &sect; 2.106 - Table of Frequency Allocations. This allocation falls within the Private Land Mobile Service governed by 47 C.F.R, Part 90.266 (Long distance communications on frequencies below 25 MHz). We intend to operate under these rules and regulations. While testing, the fixed station located at 5266 Laurinburg Road, Raeford, NC 28376 will remain in place and the mobile station will not exceed a 100km radius from this location.
