Message:

Dear Mr. Jose Trevino

On behalf of our customer Mitsubishi Electric Corporation, we inform you that we have added the antennas in the application along with a latitude, longitude and radius of mobile operations in kilometers as you requested.

Regarding your question about the consent from PCS licensees to operate in the 1850-1910 MHz band, I inform you that our customer has a non-disclosure agreement (NDA) with the network operator. If you do need to know which PCS licensee is, then I will ask our customer to generate a new Request of Confidentiality. Please let me know.

I will very appreciate if you could reply us to [arnoldo.ferrer@cetecom.de](mailto:arnoldo.ferrer@cetecom.de) for future queries.

With best regards,

Arnoldo Ferrer
