**FEDERAL COMMUNICATIONS COMMISSION
APPLICATION FOR SPECIAL TEMPORARY AUTHORITY**
**This request for Special Temporary Authority (STA) is for a Existing
STA**

Applicant Name

Name of Applicant: Mobile Satellite Ventures Subsidiary LLC

Address

Attention: Jennifer A. Manner

Street Address: 10802 Parkridge Boulevard

P.O. Box:

City: Reston

State: VA

Zip Code: 20191

Country:

E-Mail Address: jmanner@msvlp.com

Best Contact

Give the following information of person who can best handle inquiries pertaining to this application:

Last Name: Konczal

First Name: David

Title: Counsel

Phone Number: 202-663-8432

Explanation

Please explain in the area below why an STA is necessary:

Mobile Satellite Ventures Subsidiary LLC ("MSV") requests temporary authority to transmit on certain specified frequencies in the L band from a fixed antenna located at MSVs headquarters to assess the impact on receivers operating in close proximity to the antenna.

Purpose of Operation

Please explain the purpose of operation:

MSV requests temporary authority to transmit on certain specified frequencies in the L band from a fixed antenna to assess the impact on receivers operating in close proximity to the antenna. The testing program entails transmitting from the antenna on specified frequencies in the L band and measuring the effect on receivers in close proximity to the antenna. This testing will be performed during normal business hours.

Information

Callsign:

Class of Station: FX

Nature of Service: Experimental

Location of proposed operation

Operation Start Date: 07/21/2006

Operation End Date: 01/21/2007

Manufacturer

List below transmitting equipment to be installed (if experimental, so state) if additional rows are required, please submit equipment list as an exhibit:

Manufacturer	Model Number	No. Of Units	Experimental
Agilent (RF signal generator)	E4438C	1	No
Seavey (calibrated antenna)	9351-870	1	No
Seavey (L band helical antenna)	8613-800	1	No
Til-TEK (antenna)	TA-1504-10-60	1	No

Certification

Neither the applicant nor any other party to the application is subject to a denial of Federal benefits that includes FCC benefits pursuant to Section 5301 of the Anti-Drug Abuse Act of 1988, 21 U.S.C. Section 862, because of a conviction for possession or distribution of a controlled substance. The applicant hereby waives any claim to the use of any particular frequency or electromagnetic spectrum as against the regulatory power of the United States because of the previous use of the same, whether by license or otherwise, and requests authorization in accordance with this application. (See Section 304 of the Communications Act of 1934, as amended.) The applicant acknowledges that all statements made in this application and attached exhibits are considered material representations, and that all the exhibits part hereof and are incorporated herein as if set out in full in this application; undersigned certifies that all statements in this application are true, complete and correct to the best of his/her knowledge and belief and are made in good faith. Applicant certifies that construction of the station would NOT be an action which is likely to have a significant environmental effect. See the Commission's Rules, 47 CFR 1.1301-1.1319.

Signature of Applicant (Authorized person filing form):

Jennifer A. Manner

Title of Applicant (if any):

Vice President, Regulatory Affairs

Date:

Jul 13 2006 12:00AM

Station Location

City	State	Latitude	Longitude	Mobile	Radius of Operation
Reston	Virginia	North 38 56 44	West 77 19 7		

Datum: NAD 83

Is a directional antenna (other than radar) used? Yes

Exhibit submitted: Yes

(a) Width of beam in degrees at the half-power point:

(b) Orientation in horizontal plane:

(c) Orientation in vertical plane:

Will the antenna extend more than 6 meters above the ground, or if mounted on an existing building, will it extend more than 6 meters above the building, or will the proposed antenna be mounted on an existing structure other than a building? No

(a) Overall height above ground to tip of antenna in meters:

(b) Elevation of ground at antenna site above mean sea level in meters:

(c) Distance to nearest aircraft landing area in kilometers:

(d) List any natural formations of existing man-made structures (hills, trees, water tanks, towers, etc.) which, in the opinion of the applicant, would tend to shield the antenna from aircraft:

Action Frequency		Station Class	Output Power/ERP	Mean Peak	Frequency Tolerance (+/-)	Emission Designator	Modulating Signal
New	1532.34000000-1532.46000000 MHz	FX	0.030000 W 1.000000 W	M	0.00001000 %	1K50N0N	CW

Directional Antenna Information

Seavey (calibrated antenna)

- (a) Width of beam in degrees at the half-power point: 16°
- (b) Orientation in horizontal plane: The antenna will be mounted on a portable camera tripod, and will not be fixed in any particular azimuth orientation.
- (c) Orientation in vertical plane: 0°

Seavey (L band helical antenna)

- (a) Width of beam in degrees at the half-power point: 44°
- (b) Orientation in horizontal plane: The antenna will be mounted on a portable camera tripod, and will not be fixed in any particular azimuth orientation.
- (c) Orientation in vertical plane: 0°

Til-TEK (antenna)

- (a) Width of beam in degrees at the half-power point: 63° in azimuth; 8° in elevation
- (b) Orientation in horizontal plane: The antenna will be mounted on a portable camera tripod, and will not be fixed in any particular azimuth orientation.
- (c) Orientation in vertical plane: 0°
