---

Message:

Hello Behnam,

This license is exactly like the FIREBIRD license, 0200-EX-PL-2013, but it is for a different spacecraft (FIREBIRD-2) occupying a different orbit. The fixed station is the same. We weren't sure if it was necessary to include the fixed station, but we decided to err on the side of including too much instead of too little.

Please let me know if I need to amend our application.

Thanks,  
Alicia
