Mr. Kennedy,

Thanks for expediting; we will work within the limitations you provided.

Regards,
Paul Gierow

Since you requested expedited processing, the limitations I wrote below would facilitate that request. Beyond what I've written below, I can make no comments about the probability of obtaining what you are requesting.

Mr. Kennedy,
0200-EX-PL-2007 is our application for the 2 year experimental license. This STA will only cover 6 months. Is it possible to keep the experimental license application in the system?

Also, we have transmitted at the White Sands Missile Range (WSMR) previously (STA's 0589-EX-ST-2006 and 0670-EX-ST-2005). As we have experience in coordinating with the WSMR Area Frequency Coordinator, is it possible to allow operation in the 50 states with the restriction of obtaining approval from WSMR when operating within a given radius of WSMR?

If this is not possible, I will concur as necessary. This, however, will require additional STA's when we are called upon to demonstrate at WSMR again.

Subject: RE: STA File Number 0312-EX-ST-2007

Mr. Augsburgberger,

Do you concur to the following:

1.) The cancellation of 0200-EX-PL-2007 as well as 0222-EX-ST-2007 and 0148-EX-ST-2007 upon grant of 0312-EX-ST-2007?

2.) The exclusion of Texas west of 103 degrees west longitude and the state of New Mexico to avoid interference with White Sands Missile Range?

Mr. Kennedy,
Please expedite the STA File Number 0312-EX-ST-2007. This application is required to allow our customer to perform demonstrations of a portable, inflatable, fixed satellite antenna (not mobile) to government customers. Previous demonstrations have been performed for various groups within the Army and Navy. Future demonstrations may occur throughout the continental US as well as Alaska and Hawaii.

Several STA's have been granted for these demonstrations. The same power/radiation in this STA application has been previously granted under STA Number 0879-EX-ST-2006, reference Shahnaz Ghavani.

The antenna is a 2.4 meter aperture. Point of Communication is Intelsat's SBS-6 or Galaxy 10-R.

The following existing STA applications (presently "Pending") may be cancelled once this STA has been granted: 0222-EX-ST-2007, 0148-EX-ST-2007.

If you have any questions, please don't hesitate to contact me.
Regards,
