Subject: Request for Info - File # 0375-EX-CN-2021

---

Message:

This was corrected earlier today. It appears the on-line filing system is not recording our entries properly. As an example, I printed the corrected version for my records and will submit this PDF with this comment, or as an amendment to show what we intend.

Specifically, Antenna 2 (MO station) is capable of transmitting on the following frequencies:

462.72120000-462.72880000 MHz

467.72120000-467.72880000 MHz

This is what we entered, but is not what the on-line system is capturing and saving.
